

# The CONTAGION CABARET

THE BRITISH ACADEMY

Thurs 24th May 2018, 7pm

A UNIQUE COLLABORATION BETWEEN  
THE THEATRE CHIPPING NORTON  
AND OXFORD UNIVERSITY

Killer germs, superbugs, pestilent plagues and global pandemics have fascinated writers, musicians and thinkers for centuries. As disease spreads through a culture, likewise myths and ideas travel virally through film, literature, theatre and social media.

Join a cast of performers, alongside scientists and literary researchers from the University of Oxford for an evening of infectious extracts from plays and music, past and present. Be sure to bring your antiseptic wipes!

*Suitable for ages 14+ and anyone with an interest in science and / or a sense of humour.*

Tickets: FREE - advance booking required
